

Chantall

CompTIA Security+ | E. Engineering Student | Cybersecurity Analyst | Hardware Security Engineer

☎ (678) 485-2788 | ✉ MChantall@proton.me | 🌐 www.linkedin.com/in/chantallm/ | 📍 Atlanta, GA

SUMMARY

Security+ certified and an Electrical Engineering (minor in Nuclear Engineering) student with a B.S. in Mathematics and 10 years of experience in high-stakes healthcare environments. Strong computational logic and a robust safety-first mindset with technical literacy and software troubleshooting capabilities. Seeking a Cybersecurity Analyst position or a multi-semester (Spring/Summer/Fall) Critical Infrastructure internship.

EDUCATION

Bachelor of Science in Electrical Engineering (*Nuclear Engineering Minor*)

Kennesaw State University | 📍 Marietta, GA

📅 Expected Graduation: December 2028

Bachelor of Science in Mathematics

University of West Georgia | 📍 Carrollton, GA

📅 Graduated: 2019

Relevant coursework: Python, Java - Eclipse, Web Development and Design Foundations

CERTIFICATIONS

CompTIA Security+ (SY0-701)

Computing Technology Industry Association (CompTIA)

📅 Issued: April 2026

TECHNICAL SKILLS

Python, Java, SQL, HTML5 | Automation & Scripting | Windows, macOS, Linux | Git/GitHub, VirtualBox, Eclipse | Wireshark, Sysmon, Windows Event Viewer (Log Analysis) | LAN Concepts, Troubleshooting, Hardware Deployment, ITSM/Ticketing Systems

PROJECTS

GitHub Repository: <https://github.com/Chan-Cyb-Tech/soc-homelab>

EXPERIENCE

Certified Nursing Assistant (CNA)

Victory Nursing and Home Health | 📅 2019 – Present

- Compliance: Maintained 100% HIPAA and state regulatory compliance with zero privacy infractions.
- Equipment Monitoring: Operated, calibrated, and monitored telemetry hardware and diagnostic equipment.
- Risk Mitigation: Followed safety protocols to eliminate environmental risks and ensure zero-incident safety.
- Quality Assurance: Audited daily medical logs and shift charts to ensure federal error-free compliance.

Election Technical Support Specialist

TDC Systems Integration INC (Contractor for the State of Georgia Elections) | 📅 2020 – 2022

- Infrastructure: Deployed and maintained critical voting precinct hardware and localized networks.
- Incident Response: Diagnosed and resolved network disconnections, printer jams, and terminal errors under pressure.
- Downtime Mitigation: Minimized hardware latency and technical bottlenecks to prevent voter line delays.
- Security: Maintained physical and digital perimeter security of equipment to prevent unauthorized access.
